

TSCA Compliance Declaration

The US Environmental Protection Agency (EPA) released final regulations under Section 6(h) of the Toxic Substances Control Act (TSCA) for five persistent, bioaccumulative, and toxic (PBT) chemicals on December 22, 2020.

These chemicals include:

- Decabromodiphenyl ether (decaBDE)
- Phenol, isopropylated phosphate (3:1) (PIP3:1)
- 2,4,6-tris(tert-Butyl)phenol (2,4,6-TTBP)
- Hexachlorobutadiene (HCBD)
- Pentachlorothiophenol (PCTP)

At this time, we can confirm that none of our products contain the listed substances regulated under this rule. However, trace amounts resulting from contamination in raw materials, of which we have not been notified by our suppliers, cannot be completely ruled out.

A handwritten signature in blue ink, appearing to read 'M. Uebbing', is written over a horizontal line.
