Drive technology assemblies

Cables and connectors from a single source

As a leading international manufacturer and supplier of electrical connection technology, the Helukabel Group also specialises in pre-assembled cables for drive technology. We offer these solutions for all common drive systems from various OEMs - starting at one metre lengths, with short lead times and in common qualities PVC or PUR.

Our product portfolio

- Motor & servo cables
- Feedback cables
- Hybrid cables (single cable technology)

TOPSERV® CONNECTING SYSTEMS

PVC Siemens 5DN06

According to Siemens standard 6FX5002, PVC sheathed cable with UL/CSA, 100,000 bending cycles, PVC flame-retardant

Part no. 17004711

TOPGEBER® CONNECTING SYSTEMS

PVC Siemens 2EQ10

According to Siemens standard 6FX5002, PVC sheathed cable with UL/CSA, 100,000 bending cycles, PVC flame-retardant

Part no. 17008068

TOPSERV® Hybrid CONNECTING SYSTEMS

PUR Siemens 8QN04

According to Siemens standard 6FX8002, drag chain cable with UL/CSA, 5 million bending cycles, PUR sheath, halogen-free

Part no. 17005185

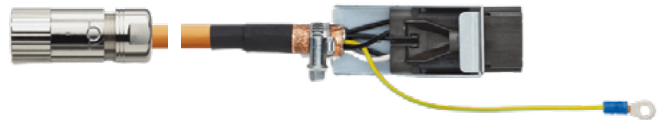

TOPSERV® CONNECTING SYSTEMS

PUR Siemens 5DS01

According to Siemens standard 6FX8002, drag chain cable with UL/CSA, 5 million bending cycles, PUR sheath, halogen-free

Part no. 17008067

TOPGEBER® CONNECTING SYSTEMS

PUR Siemens 2DC10

According to Siemens standard 6FX8002, drag chain cable with UL/CSA, 5 million bending cycles, PUR sheath, halogen-free

Part no. 661156

State-of-the-art logistics ensure delivery

Our logistics centre for cables and wires is the largest of its kind in Europe. Our stock range of around 33,000 items also includes many ready-to-use products - and our modern and efficient logistics system ensures that the products you need are always with you in the shortest possible time.

Quality for the highest requirements

Cables and wires from HELUKABEL stand for quality that meets the highest demands in drive technology. Our products meet all manufacturers' standards and are designed to withstand up to five million bending cycles, travel speeds of up to 300 metres per minute and accelerations of up to 50m/s². All cables have an extended temperature range of up to +90°C to ensure reliable operation in harsh conditions.

The right connector for every application

HELUKABEL's HELUTECH series offers a comprehensive range of signal, power and hybrid connectors. With a wide range of pole numbers, cable diameters, rated voltages and currents, you can get the perfect connection for any application - pre-assembled and always in stock.

ONLINE CABLE CONFIGURATOR

HELUTECH[®]

www.helukabel.de

Configure connectors simply online

Our HELUTECH[®] online configurator provides you with access to our complete product range in the field of signal, power and hybrid connectors.
